6 SOURCES OF SOUTH SUDAN'S MONEY

BY- DR RIAK ACHUOTH GOR

"Let Life Surprise you;

Don't be push – prevent - control by your worries – problems and fears.

Let your dream – ambitions – hard works- determination and self- believes overcome Challenges of life.

- D.R RIAK ACHUOTH GOR: - 2022 NOTES

BUILDING SOUTH SUDAN

TOUCHING BASE ON: .

- 6 SOURCES OF SOUTH SUDAN'S MONEY
- AGENDA FOR USING THOSE MONEY FOR BUILDING SOUTH SUDAN
- MANAGEMENT OF THOSE MONEY FOR THE BENEFIT OF SOUTH SUDAN

BY- DR RIAK ACHUOTH GOR

REVEALING SOUTH SUDAN SOURCE OF MONEY

- TAX MONEY (Individuals and business People Taxes)
- NATURAL RESOURCE MONEY (Oil- Gold and Minerals)
- NON-REVENUES MONEY
- LOAN MONEY
- NON-PROFIT ORGANISATIONS MONEY
- DONOERS AND FUNDERS MONEY

TOUCHING BASE ON: -

- SOURCE OF MONEY
- AGENDA FOR USING THOSE MONEY FOR BUILDING SOUTH SUDAN
- MANAGEMENT OF THOSE MONEY FOR THE BENEFIT OF SOUTH SUDAN

INTRO: - MONEY ISSUE

6 SOURCES OF SOUTH SUDAN'S MONEY.

-DR. RIAK ACHUOTH GOR

DREAM VISION FOR SOUTH SUDAN

With all the Money we have

- Why we not Paying Salaries wages?
- Why we not Providing Goods and Services?
- Why we not Building the Country on a Large scale?
- **TAXES MONEY: INDIVIDUAL BUSINESS MONEY**
- **❖ NATURAL RESOURCES MONEY: -OIL MONEY**
- **❖ NON-REVENUES MONEY: TARIFFS MONEY**
- **LOANS MONEY: DEBT MONEY**
- **❖ NON-PROFIT ORGANISATIONS MONEY**
- **DONOERS AND FUNDS**

YES, corruption and individual enrichment is the ANWSER here, when it come to this question of WHY we unable to function as country on the provision of Salaries-Wages, provision of goods and services and building of South Sudan.

South Sudan is a country that is bless in everything, its need for it building and development on a full and large scale, that is beneficial to everyone who call it homeland. It has Humans capital, Resources Capitals and Skills-Labour Capital. the untap resources such as living resources (People, Wildlife, Livestocks Fisheries, Plants), Natural Resource (Waters, Oils, Rocks, Minerals, Sand, Forests and) and skills-Labour resources (Professionals, Labours-force and Vocationalists) and the mass young populations of people, mass lands, waters, Natural resource, wildlife and all that it is as country. The fertile soil with its abundance nurturance supply of foods it can produce. The mass river-Nile that is endless of it produces and the Natural Minerals of Oil, Golds, Diamonds and all others mineral. We have everything that we can Build our Nation.

Over last 6 Years (2018-2024) and especially last 2 years where our People have gone without Salaries — wage from the government. Why are we unable to **PAY** Salaries — wages, **PROVIDE** good and services to the citizen as a country and be able to provide money for the **BUILDING OF THE COUNTRY** on a large scale.

The **OUT-FLOW OF MONEY** in millions if not, Billions of dollars over last 20 years (2005-2025) into these countries of Kenya, Uganda, Rwanda, Ethiopia, Sudan, Rwanda and some of the western countries such as Australia, America and European countries were Elites Politicians, wealthy Business people and corrupted individual is enough to provide all our need. Our main and large source of Money which are **Oil Money**, **the Taxes Money and Non-Revenues** are big enough to Pay our Citizen Salaries — wages, provide goods and Services and able us to build our Country on a large scale that is need for everyone to live in a good.

WE HAVE SUFFICIENT MONEY TO PAY SALARIES - WAGES

Our main and large source of Money which are **Oil Money, the Taxes Money and Non-Revenues** are big enough to Pay our Citizen Salaries – wages, provide goods and Services and able us to build our Country on a large scale that is need for everyone to live in a good.

6 SOURCES OF OUR MONEY: SOUTH SUDAN'S MONEY

- TAXES-LABOR MONEY: Money that come from People and Business works - Jobs as Taxes (Individual and Business taxes)
- NATURAL RESOURCES MONEY: Money that come from (Oil Money, Gold Money and others Minerals) and also wildlife Tourism and Hospitality industries.
- NON-REVENUES MONEY: Money which the Government collect from Citizens, Business and Resources from different country who come into our country on the boarders Tariffs of country such as Sudan, Ethiopia, Kenya, Rwanda and Democratic Republic Congo. The government authority collects a lot Non-revenue Money from those countries
- LOANS MONEY: Our government borrow loans from individuals, business, countries, African bank and world bank for projects such as Peace building, infrastructures and education. These are money which are there for development.
- NON-PROFIT ORGANISATIONS MONEY: Our government get money from non-profit organizations such as UN, world food programs, world vision, red cross, world frontier and other big philanthropist organizations that funds projects such as Peace building, infrastructures and educational projects. These are money which are there for development.
- DONOERS AND FUNDS: Money that come from well-wishers, friends of South Sudan. People, countries and individual organizations who give free-gifts are money that are there to be used for the development.

THE QUESTION OF WHERE THE PAYROLL BELONG TO?

CONSIDERING WHO SHOULD BE PAY

Why our country is unable to pay for Salaries – wages to Parents, Labours workers and Spiritual People. All these 3 Pinnacle are jobs that need to be pay for their services. Why I include Parents and Spiritual people here in the payroll list of people that need to be pay for their services to the country, as the status quote is only Labours people that only get paid. First of all, GOD doesn't want anyone of us to live poor or be bagger to anyone in life, even those who provide service to GOD's People, GOD doesn't want them to lives in poor conditions, they also need to be rewards for their services to the country, so they can provide for their own families. Afterall, the Parents who are parenting at home while looking after children is a a job that need to be pay by the country-Government, just like labours people who also provide services to the country and same thing goes to School – Church people.

Those people who we left out without paying them for their services they providing to the country, who will provide for their families if they don't get paid for the works they do. After all both Parents and Spiritual people like labours people are all provide services to our people. Parents are rising children who become next labours of our country, and spiritual people are providing guidance services to the people. So, all 3 Pinnacle should be equal when its Pay-day. Parents and Church people have to be pay for their services they provide to the country, so they provide for their families as well, as everyone does. Even GOD himself say go into the earth and work it in all kind of way and so suitable for even those who works for GOD to be rewards for their services just like everyone in our society.

BIG QUESTION?

WHY ARE BUILDING OTHERS COUNTRIES

(Kenya-Uganda – Ethiopia -Sudan - Rwanda and Western Countries)

INSTEAD OF OUR OWN COUNTRY: - SOUTH

SUDAN?

Why we Building others Countries?

(Kenya-Uganda – Ethiopia -Sudan - Rwanda and Western Countries)

Out- Flow of Money into other Countries.....

The out-flow of Money in millions if not Billions of dollars over last 20years (2005-2025) into these countries of Kenya, Uganda, Rwanda, Ethiopia, Sudan, Rwanda and some of the western countries such as Australia, America and European countries were Politicians elites, Business people and corrupted individual who are milking and looting South Sudan by buying luxury Mansion homes — High rising Building and skyscrapers, Expensive Businesses and expensive, Cars - health treatment around the world while housing their families, schooling their children and living in those countries with all the Money resources that could be used to building South Sudan.

Corruption: - Individual Enriching

Individual enriching themselves is the norm in South Sudan and it becoming a culture among everyone. Everyone gets themselves into the government office to loot money, knowing that they going to be remove anyway and so the steal money that would be use for the building of the nation. Corrupt individual living luxury lifestyle in foreign land (Kenya, Uganda, Rwanda, America and western world with all the money they took to buy themselves fancy Homes, business and real estate in country such America, Dubai and Arabs countries that houses them.

With all the Money we have

- We can able to Paying Salaries wages
- We can able to Provide Goods and Services
- We can able to Building the Country on a Large scale

With all the money we have from Taxes Money (Individual and Business Taxes collected), Natural Resources Money (Oil and Minerals), Non-Revenue (Boarder collection of Tariffs on imported goods and services from others countries), Loans (Money debts borrow from Internation world bank, African banks, Business and individuals), Non-Profit organisations funds and then Money from well-wisher's donors and funders for the development of the South Sudan. The are a lot of money that are sufficient and efficient, that we can be able to provide salaries – wage for our people, be able to provide good and services and goes on a large-scale development of the country.

SETTING UP A MINISTRY OF BUILDING SOUTH SUDAN

The country with all its branches of people from Family Pinnacle, Government Pinnacle and Spiritual Pinnacle with all of their institutions, structures and systems should come up with resolutions on how those that are tasks and given responsibilities of looking after the country resources for Building the Nation, which is government pinnacle, should set up and create a Ministry of Building South Sudan with it department and offices like others ministers and it primarily soul purpose is to look after the Money and resources that are assign for Building of South Sudan. Money needs to be allocated into a Bank Account of Ministry of Building South Sudan and task for the purpose of Building of Physical Facilities, Homes, Buildings, offices, Infrastructures of all sectors of People welfare, Agriculture, Health, Security, Infrastructures/ Manufacturing, Peace/leadership, School/Technology and Spiritual.

This way, when a responsibility is given to known people and in this case a Ministry of Building South Sudan, now we know what need to be build and who is accountable for it. This way it reduces Individual Ministers, who take money in the name of development in their respective ministries and then they don't build Physical facilities but, only use money for their personal gain which increase corruption and enrichment. It would reduce corruption and wastes of Money of the purpose of Building the Nation. The only responsibility for those Ministers would be to manage finished Physical facilities, Build by ministry of Building South Sudan.

CONCEP: - BUILDING

BUILDING OF SOUTH SUDAN WITH IT'S MONEY

South Sudan is a country that is bless in everything, its need for it building and development on a full and large scale, that is beneficial to everyone who call it homeland. It has Humans capital, Resources Capitals and Skills-Labour Capital. the untap resources such as living resources (People, Wildlife, Livestocks Fisheries, Plants), Natural Resource (Waters, Oils, Rocks, Minerals, Sand, and Environment) and skills-Labour resources (Professionals, Labours-force and Vocationalists) and the mass young populations of people. The fertile soil with its abundance nurturance supply of foods it can produce. The mass river-Nile that is endless of it waters produces and the Natural Minerals of Oil, Golds, Diamonds and all others mineral. We have everything that we can Build our Nation.

Building South Sudan need be on a LARGE SCALE, rather on SMALL SCALE. It needs Building on a larger scale and bigger on federal, states, counties, municipalities, Payams and Bomas. A large scale of development that is exploring the concept of Building South Sudan through Pinnacle of a blueprint well and good organize agenda that is well plan, map-out, budget, action originate, manage – strategy and well executed on all level of FAMILY Pinnacle (Home -Hospitality), GOVERNEMNT Pinnacle (Government – Business), and SPIRITUAL Pinnacle (School – Church) Institutions, Structure and Systems. Families, Government and Spiritual Pinnacles Institutions, Structures and that can be recognize in the world as A WORLD CLASS Country.

We have People skills, knowledge, tools and resources that can do that on a large scale and bigger. The need of building a nation Socially-Politically- Spiritually; must be based on a larger scale agenda of Building a Nations in any institutions, structures and systems capacity across all platforms, elements and Pillars of Development, where everyone is not leaves behind in our society. So, we have a country where we don't have a class of people of Rich vs Poor, Middle class Vs Lower Class. But a country we all feels we belongs and proud of it. A Place where we all cherish and Value as a Home of great people on Earth.

A large Scale of building South Sudan base on a proper Systems, Structures and institutions set up to provide services to people, in a great way to a proper building of a country. A great planning of different Sectors, departments, offices and level on all Federal, states and local governments. Structures, Systems and Institutions on these Sector such as People welfares, Agriculture, Health, Security, Infrastructures, Peace-Leadership, Education and Church.

Agenda of building South Sudan on a large scale, were our **PEOPLE WELFARE** and their wellbeing on family, school children and individual who need helps which its functionality of Peoplefamily welfare, age care welfare, and the whole welfare system that can provided welfare to our people. A welfare that is for families which focus on helping children, women and parents on raising families and children.

A larger scale of building our country on a **HEALTH CARE** where provision of foods (agriculture) and clean water, air and environment is vital and important on sector such as Agriculture and Health of clean environment. We make sure that our Source of foods we eat, water we drink, air we breathe and the environment and places we live in are all cleans, nutrient and healthy. We build good hospitals and health facilities that are for our health. We need to make sure our environment, foods, waters, airs, eat, drink and breath in are clean.

We make sure we have proper cleaning systems put in place such as sewages wastes management system that either for burning or recycling those wastes of our households and human wastes. A sewages system that can be put in place on our neighborhood streets, workplaces and environment such as oil field and cleaning of our river Nile and it attributes.

Building South Sudan on a large-scale development Agenda base on the government structures (Government and Business) which provide security and protection of the citizen. Business platform that brings forth the creation of Jobs and skills for normal citizen to work for their Livelihood, so the economics of the country can grow as citizen provide taxes for the services and labors provide. Lastly the Spiritual pinnacle of (School and Church) structure become a Moral guideline to the society. Providing moral capacity of what is right and wrong among the citizen and acting as check and balance of between family and Government Pinnacles.

GOOD REASONS TO WHY WE ABLE TO BUILD OUR NATION

4 GOOD REASONS

- OUR PURPOSE MISSION VISION of Separation -Liberation, Independent and Building a Nation.
- We have PEOPLE AND SKILLS (Professions Vocational)
- We have MONEY (6 sources of our Money)
- We have RESOURCES (Water Oil Sand Rocks -Plants)

Our country of South Sudan has everything that its need for it building on a LARGE SCALE, rather on SMALL SCALE. We all have a good reasons and purpose to believes that, we can do it. We have the purpose and wills of how our forefathers/Mothers fought for Separation and liberation, our fathers/mothers fought for independency and now we as of these generations want to build it, for the purpose of development. We have every reason to believe that, we can do it by building our country into a world class country that is world recognise and a place we all can home.

WE HAVE PEOPLE AND SKILLS TO BUILD

We have PEOPLE AND SKILLS (Professions – Vocational skills) that need we need to build our nation. Either be our women, youth and Men to do jobs – tasks and works that need our country to be built on world class. Also, we have Professionals skills such as Academia Doctors (Teachers- Researchers), Health doctors (Nursers, Mid-wife, Carers), engineers (Pilots-Mechanic and Builders), Business incumbent (Accountant – Bankers-investors) or vocational skills such as Farmers, trader and Parenting and the list of skills goes on.

WE HAVE MONEY TO BUILD

We have MONEY (6 sources of our Money)

- LABOR MONEY: Money that come from People and Business works - Jobs as Taxes (Individual and Business taxes)
- NATURAL RESOURCES MONEY: Money that come from (Oil Money, Gold Money and others Minerals) and also wildlife Tourism and Hospitality industries.
- NON-REVENUES MONEY: Money which the Government collect from Citizens, Business and Resources from different country who come into our country on the boarders of country such as Sudan, Ethiopia, Kenya, Rwanda and Democratic Republic Congo. The government authority collects a lot Non-revenue Money from those countries
- LOANS MONEY: Our government borrow loans from individuals, business, countries, African bank and world bank for projects such as Peace building, infrastructures and education. These are money which are there for development.
- NON-PROFIT ORGANISATIONS MONEY: Our government get money from non-profit organizations such as UN, world food programs, world vision, red cross, world frontier and other big philanthropist organizations that funds projects such as Peace building, infrastructures and educational projects. These are money which are there for development.
- DONOERS AND FUNDS: Money that come from well-wishers, friends of South Sudan. People, countries and individual organizations who give free-gifts are money that are there to be used for the development.

WE HAVE RESOURCES TO BUILD

We have RESOURCES that is of Humans capital, Resources Capitals and Skills-Labour Capital. the untap resources of capital such as living resources (People, Wildlife, Livestocks Fisheries, Plants), Natural Resource (Waters, Oils, Rocks, Minerals, Sand, Forests and) and skills-Labour Resource (Professionals, Labours and Vocationalists) and the mass young populations of people, mass lands, waters, Natural resource, wildlife and all that it is as country. The fertile soil with its abundance nurturance supply of foods it can produce unlimited supply of everything in the land. The mass river-Nile that is endless of it produces of fisheries and the Natural Minerals of Water, Oil, Golds, Diamonds, Sand and all others mineral. We have everything that we can Build our Nation.

WORLD CLASS SCHOOL

WORLD CLASS HOMES

WORLD CLASS CITIES

WORLD CLASS ROADS

WORLD CLASS AIRPORTS

CONCEP: - BLUEPRINT

BLUEPRINT FOR BUILDING OF SOUTH SUDAN

Building South Sudan need a **BLUEPRINT** that is good and well organize on an agenda that is well plan, map-out, budget, action originate, manage – strategy and well execute on all level of FAMILY Pinnacle (Home -Hospitality), Government Pinnacle (Government - Business), and Spiritual Pinnacle (School -Church) Structure, System and institutions. A blueprint that outlay and outline a large Scale of building South Sudan base on a proper Systems, Structures and institutions set up to provide services to people, in a great way to a proper building of a country. A great planning of different Sectors, departments, offices and level on all Federal, states and local governments. Structures, Systems and Institutions on these Sector such as People welfares, Agriculture, Health, Security, Infrastructures, Peace-Leadership, Education and Church. That is well budget and fund with money, Natural Resources that need to be well look after for the development and building of South Sudan.

On All these 3 levels of Family Pinnacle, Government Pinnacle and Spiritual Pinnacle on its Institutions, structures and Systems, need to be involved for the need of building a nation that can be recognize in the world as A WORLD CLASS Country. We need to have People Skills, knowledge, Tools and resources that can do that. The need of building a nation Socially-Politically-Spiritually; must be based on Developing agendas of Building a Nations in any institution's capacity, Structure layer and Systems monology across borders, where everyone is not leaves behind in our society. A country where we don't have a class of people of Rich vs Poor, Middle class Vs Lower Class.

But a country we all feels we belongs and proud of it. A Place where we all cherish and Value as a Home of great people on Earth.

South Sudan is different from others countries of the world. It starting from nothing into development. And so, building a nation need careful planning, well use of resource and its well manage of labour skills, to make it liveable, workable and dwell able for everyone that called it homeland. South Sudan, is a land rich in everything, it a land rich with everything that is untap, from its people, resources and skills of knowledge that has been overshadowed by economic crisis, political instability, hunger, and relentless tribal conflicts. The Spiritual people, government people, families people need to be our pillar, but too often, they seem to be too deaf to the cries of our people and theirs needs and wants. South Sudan needs a real development like other countries of the world, Country such as Japan for its lifestyle, Australia for it universal laws and Singapore and China for its development of people, places and tools -SKILLS.

PLANNING

We need to develops our people, building them, building our places of dwellings, build our Skills for our labour and build ourselves Tools to use for our development of the Nation. We need to organize our country into

- FAMILY Pinnacle
- GOVERNMENT Pinnacle
- RELIGION Pinnacle

A good organization of FAMILY Pinnacle, Government Pinnacle and Spiritual Pinnacle on theirs Institutions, structures, systems which can provide services, Jobs and goods to our people, we need to build our nation. A well organize structures, systems, and institutions that provide and detail who is responsibility of what, who is doing what, who is budgeting what, who is managing what, who is actions planning what and who is accountable of what with tangible result and factual meaningful result of the true Building South Sudan.

Agenda of building South Sudan base on a proper Systems, Structures and institutions set up to provide services to people, in a great way to a proper building of a country. A great planning of different Sectors, departments, offices and level on all Federal, states and local governments. Structures, Systems and Institutions on these Sector such as People welfares, Agriculture, Health, Security, Infrastructures/ Manufacturing, Peace-Leadership, Education/ Technology and Church Affairs.

Agenda of building South Sudan were People welfare and their wellbeing on family, school children and individual who need helps, that its functionality of People-family welfare, age care welfare. Whole welfare system that can provided welfare to our people with it aim of provision of foods and clean water on sector such as Agriculture and Health of clean environment.

Agenda base on the government Pinnacle (Government and Business) which provide security and protection of the citizen. Creation of Jobs and skills for normal citizen to work for their Labors, so the economics of the country can grow as citizen provide taxes for the services and labors provide. Lastly the Spiritual Pinnacle (School and Church) become a Moral guideline to the society. Providing moral capacity of what is right and wrong among the citizen and acting as check and balance of between family and Government.

ACTION PLAN

The second thing we need is the **ACTION PLAN for our agenda of building South Sudan**. Building South
Sudan need a **BLUEPRINT** that is good and well ACTION PLAN on
an agenda that is well plan, map-out, budget, action originate,
manage — strategy and well execute on all level of **FAMILY Pinnacle (Home -Hospitality), Government Pinnacle (Government — Business), and Spiritual Pinnacle (School — Church) Structure, System and institutions**. ACTION PLAN on
how to implements these Structures, systems and institutions
on Family, Government and Spiritual Pinnacles.

ACTION PLAN BASE ON: -

- Planning Mapping of Sectors for development
- Money Budgeting Funding of the projects
- Execution of actions of the projects
- Actions and management of the projects
- Maintenances and sustainability of the projects

To achieve all these, we need those Action plans, First don't tell me, we don't have MONEY, so we can't buy things to Build Or we have CORRUPTED LEADERS, so it not going to work out, as they are the one who take our money to foreign country (Kenya, Uganda, Rwanda, Ethiopia, America, Western world) and build those countries with our own money, for their children, wives, relatives, friends and people (school fees, renting mansions houses and buying luxury cars) Or we have UNWILLING CITIZENS (Women-Youth and Men) who don't want to works or we don't have RESOURCES- TOOLS- EQUIPMENT to builds our Nations.

To you, those are your reasons to say it will never work or it will never come true as it is just a dream and my own words, are just of a talk which will never come to lives. But I will tell you a Million and even Billions of Reasons, why? you will not tell me that, all above reasons. Just because we have all those reasons I mention above, doesn't mean we can't build our country. As I said, we have millions, if not billions of reasons to say YES, we can build our country regardless of all those reasons we might think, it will not work. Just because we have corrupted leaders, unwilling citizen and mindset of us that we don't have resources. we have **Money:** - here are our money for building

6 SOURCES OF OUR MONEY: -: SOUTH SUDAN MONEY

- LABOR MONEY: Money that come from People and Business works - Jobs as Taxes (Individual and Business taxes)
- NATURAL RESOURCES MONEY: Money that come from (Oil Money, Gold Money and others Minerals) and also wildlife Tourism and Hospitality industries.
- NON-REVENUES MONEY: Money which the Government collect from Citizens, Business and Resources from different country who come into our country on the boarders of country such as Sudan, Ethiopia, Kenya, Rwanda and Democratic Republic Congo. The government authority collects a lot Non-revenue Money from those countries.
- LOANS MONEY: Our government borrow loans from individuals, business, countries, African bank and world bank for projects such as Peace building, infrastructures and education. These are money which are there for development.
- NON-PROFIT ORGANISATIONS MONEY: Our government get money from non-profit organizations such as UN, world food programs,

EDITION 4 AUG - DEC

world vision, red cross, world frontier and other big philanthropist organizations that funds projects such as Peace building, infrastructures and educational projects. These are money which are there for development.

 DONOERS AND FUNDS: - Money that come from well-wishers, friends of South Sudan. People, countries and individual organizations who give free-gifts are money that are there to be used for the development.

So, you can see, we have People, Money and resources to build our great country. We have leaders, we have People and we have Resources to build our beautiful Nation. That my Conclusion unless, you one of those people who want to benefit only from those who mismanages our nation resources, people and Money and don't want to see all of us prosper and lives in a good life.

We have abundance of Resource to Build our Nation. We have young generations of people that can helps us in Labor force, we have Untap natural Resources and Environmental resource, we have Beautiful Land, Waters, animals, Birds and everything that we need to build our Nation, to become a great country on planet Earth. Nation-building is a significant undertaking especially for those emerging nations out of the conflict of wars. But if they governments employs, they right people on all levels as a device that integrates several other instruments of foreign policy—including military force, trade, and diplomacy of nation building can be a powerful intervention to liberate our people from Poverty (Food insecurity), Diseases (Health Insecurity), Conflict (Peace Insecurity), Unliterary (Educational insecurity) and Spiritual Moral (Spiritual Problems).
