**Re: *Seeking partnership and collaboration for enhancing strategic engagement and partnership between Diaspora South Sudaness: - Australia, Canada – USA vs Africa on Academia, business, support people- to people link to promote LOVE- UNITY – PEACE - gender equality of our FAMILIES (Women -Children).***

Dear Ambassador,

Firstly, I would like to Congratulation you, on your appointment as South Sudaness Ambassador to Asia Pacific in particular China, Australia and Malasia representing South Sudan government, It a great achievement for all of us. My Name is DR RIAK ACHUOTH GOR (2 Ph.Ds.) Currently living in Melbourne, Vicotria Australia. I'm A South Sudanese- Australian Academic Scholar and Professor @ Open University; Executive Director for Board Members of Directors @ Futurevoices Inco; Advisor @ Doxa Youth Foundation; Author @ DR RIAK ACHUOTH GOR's Book Publisher; Writer @ DR RIAK ACHUOTH GOR'S Journal Pinnacles – Public Speaker @ SOUTH SUDAN THINK TANK Inco and Business Owner @ DR RIAK ACHUOTH'S Global Brands Inco, DR RIAK ACHUOTH GOR'S Scholarships Grands. As a Board Member of Executive directors of Future Voices Inc - the Nelson Mandela Learning Centre Australia Project officially endorsed by Nelson Mandela Foundation in South Africa to continue delivering education that contributes to social cohesion by developing skills for participation in society and extending understanding of different ways of leadership for youth. This includes skills communication for working, and investing in a national and global context for young people.

On your visited here in Australia last month, and in particular in Melbourne, I went to your 2 meetings with South Sudaness Communities here in Victoria, Melbourne and unfortunately, I didn't find time to have a conversation with you, since you were busy with a lot of your duties and people. I was so proud and delighted to finally have someone of your natures and calibrate representing our people in Asia Pacific region. I want to touch base with you about few things. I want to bring to your attention 5 Pillars issues, although you might be aware of them. Firstly, I would like to highlight some of the issues we having and the skills that need to address them. 1@**THE ISSUE OF UNITY! Our Unity** as a people of one Nation, need to be driven by open dialogue, forgiveness and compromising for the benefit of all, better for socially, economically, politically and spiritually development for our people. 2: -**THE ISSUE OF YOUTH IMPRISONMENT!** Our Mothers and fathers are secretly crying for their children who are sitting **Prisons, detention centers** and most of them outside been affected by drugs. 3: -**FAMILIES' ISSUES!** The high rate of our **single mothers struggling to rising 5 to 10 children by themselves**. 4: -**ISSUES OF PEACE and HARMONY!** The **hateful and disunity** among our people in our communities, churches and homes. 5: - **ISSUE OF MEDIA!** And last the **negative perceptions of our people through the eye of world medias**, as we all witness it over last few years; especially Particular here in Australia with our young people issues and back home in South Sudan how its portrait by outside world in negative ways. These are pressing issues that need to be address in our people needs.

In order to address those issues, I do believe with these few concepts and they might not be all that we need, but only a few suggestions to address these issues. We need to invest money into our people by creating programs and projects! I do believe your office can contribute with collaboration with communities here to implementing solutions to these ideas.

## 5 PILLARS TO FOCUS ON

### 1: - **NEED OF DILOGUES: - OUR PEOPLE NEED CONVERSATION- TALKS**

MESSAGE OF UNITY– PEACE – LOVE AND HARMONY Among our communities. We are one people of one nation and for that, we need our people to have dialogue and discussion on these issues, so we can come up with way forward for each other. There is a saying that said in African word, “Until you sit down with someone and share a food, water and conversation with that people then only you consider them as family, friend and Kins but; until then that person is an Enemy”. If we don’t sit down as people and share ideas then we always going no were. We need to encourage our people to start sitting down together like what happened during your visit here in Australia, it was prime example of how our people need to come together and talks things out and there we find solutions to problem we facing as people. We talk out our grievances, worries and dialogue with each other’s and from there we can able to find reconciliation and forgiveness.

### 2: - **FAMILIES SUPPORT: - IT TAKE A VILLAGE TO RISE A CHILD!**

Family is a back-bone of any society. The Issues of Family Violent and break-down of Families structure, need to be looks into and find root cause of these issues. Program such as Parental mentoring can be implement and communal settlement of the disputes by elders. We need parental group system comprise of mothers and fathers who can helps each other and support systems to address their issues.

### 3: - **ENGAGE YOUNG PEOPLE!**

Young people are our future! Put money in this area to address the; Issues of school drop-out and Youth used of drugs and imprisonment, with high rate of unemployment. By addressing this, we can look into the issues of school system, create local sport clubs to engage this young people. Let promote Education, Sport and Culture to our young people, sport such wrestling and culture dance and Basketball which are popular to our young people.

There are already programs run by local people and young people that we need to invest money in them to support our young people

- South Sudaness Australian wrestling and cultural dance
- South sudaness Australian Basketball
- South Sudaness Australian Football/ soccer
- Cultural linguistic of children learning mother native languages.

**4: - LET CELEBRATE OURSELVES!** – let come up with how we can celebrate ourself and our achievement! I was so touch seeing a lot of South Sudaness here in Australia coming in number, for your visit and celebrating the fact that we have ambassador in government on higher level. South Sudaness people achievement program such as yearly celebrations and in particular our High school and University students across our diaspora, to showcase our achievement to outsider world, that we are people of excellent and hard work can be a way to celebrate our success and showcase the world that we are people of excellent and hard work. In areas of Acidemias, Business, Politics, Religions and Families achievement to showcase our Socially, Economically, politically and spiritually that we too are of achievers and doers of greatness. To enhance and focus on honoring our Youth and in particular those who finished high schools, Universities and other Higher Institution.

- Have a strong brand and base of South sudaness diaspora
- Link them with our homeland of South Sudan,
- To give a space to deliver seminars and training on leadership, innovation, international affairs and global to young people.
- enhance strategic engagement and partnership between Africa – Australia, Canada and America of academia, business, support people- to people link and promote gender equality.
- Develop sustainable local, state and global network and partnership that provide employment opportunity, the identification of pathways into further trainings for South Sudaness diaspora
  - Africa young people and adult community members.
- Provide and develop comprehensive cross- cultural collaborations.

## **5: - ADDRESS MEDIA NEGATIVE NARRATIVE!**

Media control: - how our message is portraits in the world media need to be control on issues of our children and youth. Addressing media issues with any media outlet should be program for your office to work with hand in hand with media houses and their government! We are people of a great nation. A Country of South Sudan with its own sovereignty in its own right. Those countries who used their media to negatively portrait us as bad people! We need to be address as we have a right to be protected by any government with our interest as people. There should be a law and rule put in place for those media houses and how they talk about our issues.

As well for us, we need to do our part here! How we represent ourselves to outsider world do matter as well and what we do! So as people we need to contribute positively to any given society, we in and having good relationship with media is vital part of any communication in any society and so we need to tells our good stories of ourselves, stories of our good lifestyle, culture, educations, politic, Business and Religions just to mention few. Stories of success in profession of academicians, business, communities works and Religion level. We have many Ph.Ds. holder, medical doctors, Lawyer, Bankers, Accountant, pilots and the list goes on of profession we can showcase in the media. We have our cultural dance, wrestling, football and basketball which we can show to outside world. So why not focus on that rather on negativity.

Indeed, I would be delighted to discuss any approach you see fit and look forward to your suggestions. For further information in relation to this request please do not hesitate to contact me. Once again thank you for your support and looking forward to hearing you.

Yours Sincerely,

**DR RIAK ACHUOTH GOR (2 Ph.Ds.)**
